Creating a Culture of Peace
nonviolence training for personal and social change

Program description: Fear not! You have the power to make change. CCP is an interactive, experiential program on the spirituality and practice of peacemaking. It will strengthen your spirit and your skills.

You will explore the nature of violence and nonviolence, how social change occurs, and how to build communities of trust. CCP can

apply to many issues of conflict and controversy, personal and social, such as domestic abuse, global warming, discrimination, community violence, poverty, etc. You will harvest wisdom from your experiences, and learn from the lives of ordinary people and famous peacemakers. There will be time for reflection and sharing, and you will depart with action plans and a renewed sense of how to make change happen. You will make a difference when you return home!
