

Student Profile

Name of Student: Kiden Sarah George

DOB Supported School: Gaderu Primary School

Current School: Kajo Keji Secondary School

Class: Senior 2

At her first year of secondary education, Kiden Sarah has, started her dream of becoming a medical Doctor. Before Sarah started getting school support from the Diocese of Bethlehem, her mother has been supporting her through selling some vegetables from her garden. But this was not enough to fully support Sarah and the rest of the children. Sarah's mother is suffering from Haryana which has resulted in her operation. She is getting better now.

With the support from DOB, Sarah now thinks she will be able to realize her dream of becoming a medical doctor. "As I have now joined senior one, I hope to go through to university and will do medicine so that I become one of the few women doctors in our county of Kajo Keji", says Sarah. "I want to become one, so that I will be a role model to girls in our village of Gaderu and support my parents", she continued.

Sarah's mother, one of the Lay readers in the Diocese of Kajo Keji, has been helping her six children through the sale of vegetables. Sarah is the second last born to her mother. George Kenyi, Sarah's father serves as a parish priest in one of the churches.

"I love my parents, my brothers and sisters" she said. I love my school too, which teaches us discipline" She said.

"Please help pray with me for my children who heavily rely on me for school support since my husband, has very little income" said Sarah's mother. My husband's support is just like a drop of ink into an ocean!!" continued Sarah's mother.

Listening to Sarah's dream, her mother is so determined to see that Sarah realizes her dream. With the very little or no support to the family, the father is constantly in prayer for his children and the rest of the family. This family is an example to many – there is peace in the family in the midst of great need.

"If the funds from DOB were not there, there is high chance I would drop out of school and this would be the end of my dream. Thank God for the DOB for this support" said Sarah. My parents were not able to meet most of my scholastic materials and school fees and therefore increased fear I would continue. Now I am able to meet my fees and scholastic materials. My Parents are also happy that this support is there!! Merry Christmas to you all my friends.
